Mr. R. N. Hazelwood
3405 N. Hackett Avenue
Milwaukee 11, Wisc.

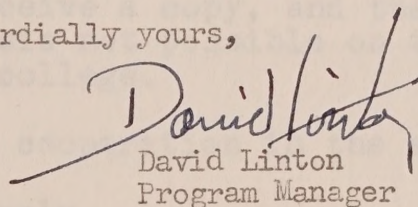

Dear Nick,

Thanks for your letters. Harriet also sends her thanks for your letter to her. We will be glad to supply extra copies of the Haverford survey report in the fall, although you may have to remind us about it when the time comes. The report on the full national survey will probably come out in August or September.

I will be glad to get you a copy of Carlile's "Production and Direction of Radio Programs" and send it to you if you wish. However, I think that Albert Crews' book "Radio Production Directing" is a somewhat better book covering about the same material but with better organization. Also, it is several years newer. (The prices are about the same). If you have already read Crews, or want Carlile anyway, let me know. I'll be glad to get you a copy of either one you want.

We'll be glad to see you shortly after September tenth. Hope you can stay around for a couple of days..

Cordially yours,

David Linton
Program Manager
